HOW TO DETERMINE YOUR RING SIZE

This guide will help to determine your ring size but we strongly recommend getting sized in person by a jeweller. Babyanything does not offer resizing on our rings.

CONFIRM PRINTED PAPER SIZE

1 Inch

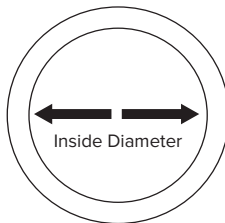

30 mm

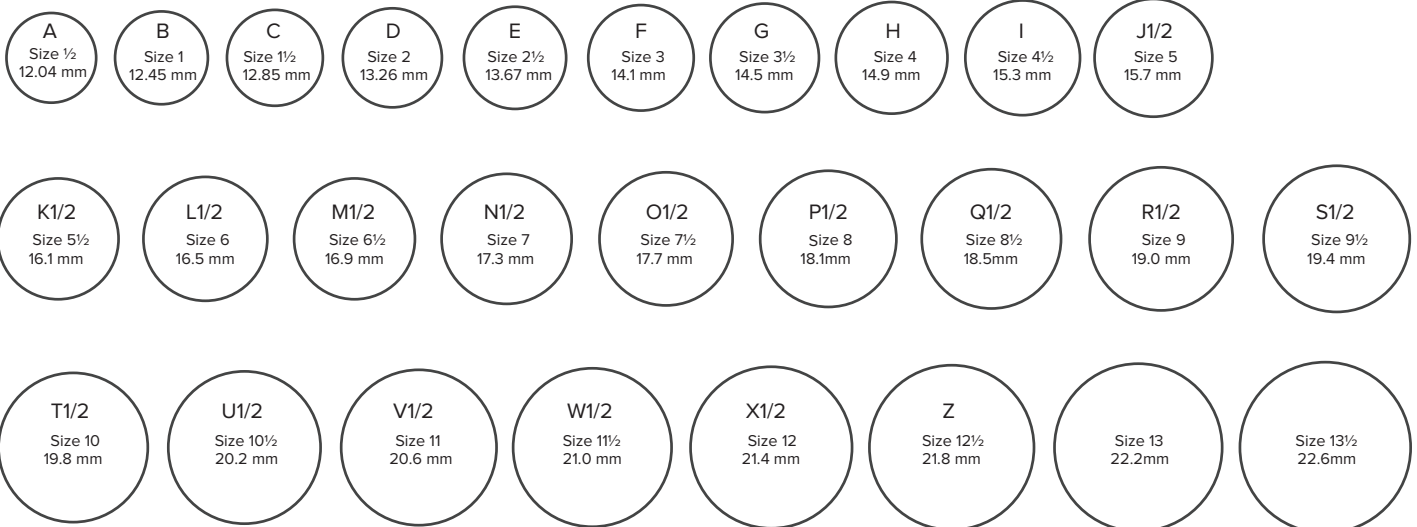

1. Ring measurements are very precise. Carefully follow these instructions to obtain an accurate measurement.
2. Prior to printing, ensure that page scaling is set to 'none', '100%' or 'actual size' on your print dialog box. Deselect 'fit to page'.
3. Measure the bar on the left. It must be exactly 1 inch or 30 mm long. Alternately, place a 20 cent piece where indicated. The coin should completely over the image so that all lines are covered, without the coin hanging over any edges.

HOW TO DETERMINE YOUR RING SIZE

Measurements match the inside diameter of the ring.

1. Select a ring that properly fits the intended finger.
2. Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurement refers to the inside diameter of the ring.
3. If the ring falls between two sizes, order the larger size.

TIPS FOR MEASURING RING SIZE

Ring sizing tips

A perfect ring should be comfortable on the wearer. The ring should be loose enough that it glides on and off the finger comfortably but it should be snug when it pushes over the knuckle to ensure it will not slide off.

Band thickness

The majority of Babyanything rings have a thin, narrow band so these measure true to size. If you select a ring with a wider band you should order a half size bigger than your measurement to allow for the extra band width.

Temperature

Please ensure you measure your finger multiple times to ascertain the correct size as finger size changes depending on the time of day and the weather.

Fingers are largest first thing in the morning and in warm weather.

Cold weather causes fingers to shrink so please keep this in mind when determining your size.

The best time is mid afternoon when you are at room temperature.

Methods

We do not recommend using the String method to measure ring size, string can be tricky to keep taut and can result in the wrong reading. If you have large knuckles, measure both your knuckle and the base of the finger and select a size which falls between the two. The best ring to use with our printable ring sizing chart is a plain, narrow band. Rings with large stones set may give a distorted reading due to the settings lifting the ring shank off the page.

Popular ring sizes/ International Conversion

If the ring is for a gift as a rough guide a K 1/2 is a 'Small' M 1/2 is a 'Medium' and P 1/2 is a 'Large' presuming the ring is for a ring finger.

Our most popular size for females is a size L 1/2.

The most popular size for males is an R.

Please use the conversion chart provided to convert your size into Australian/UK letter sizing to place your order.

Ring Sizer

If you are in Australia we will send you a plastic ring sizer to measure finger for a small fee or complimentary with any purchase please email info@babyanything.com.au to have one sent.

ORDERING CUSTOM SIZES

If you wish to purchase a ring in a size not shown in stock on the website it is possible to make a custom order. It will incur an additional fee of \$20* for each piece. Please email info@babyanything.com.au to order. If the piece is a large size and/or a thick band that uses more metal, the metal cost will be added to the \$20 custom charge.
